Power Supply Door Label

Instructions for Installing Warning Labels on IC697PWR7XX Power Supplies

Two labels with WARNING text in different languages are provided with this IC697 power supply. The label with English and Spanish text is factory installed on the inside of the power supply door as shown below. The other label is available if you want a different language label installed (French, German, Italian).

1. To install a Warning Label on an IC697PWR7XX Power Supply:

- Remove the backing from the self-adhesive label. Carefully place the label on the inside of the power supply door over the existing label as shown below. Firmly press the label in place.
