

Stratix 5700 Ethernet Managed Switches

Please read this end user license agreement carefully. It is very important that you check that you are purchasing Rockwell Automation software or equipment from an approved source and that you, or the entity you represent (collectively, the 'Customer') have been registered as the end user for the purposes of this Rockwell Automation End User License Agreement. If you are not registered as the end user you have no license to use the Software, and the limited warranty in this end user license agreement does not apply.

Assuming that you have purchased from an approved source, downloading, installing, or using Rockwell Automation-supplied software constitutes acceptance of this agreement. Rockwell Automation, Inc. or its subsidiary licensing the Software instead of Rockwell Automation, Inc. ('Rockwell Automation') is willing to license this Software to you only upon the condition that you purchased the Software from an approved source and that you accept all of the terms contained in this end user license agreement plus any additional limitations on the license set forth in a supplemental license agreement accompanying the product or available at the time of your order (collectively the 'Agreement').

To the extent of any conflict between the terms of this end user license agreement and any supplemental license agreement, the supplemental license agreement shall apply. By downloading, installing, or using the Software, you are representing that you purchased the Software from an approved source and binding yourself to this Agreement.

If you do not agree to all of the terms of the Agreement, then Rockwell Automation is unwilling to license the Software to you and (a) you may not download, install or use the Software, and (b) you may return the Software (including any unopened CD package and any written materials) for a full refund, or, if the Software and written materials are supplied as part of another product, you may return the entire product for a full refund.

Your right to return and refund expires 30 days after purchase from an approved source, and applies only if you are the original and registered end user purchaser. For the purposes of this end user license agreement, an 'approved source' means (a) Rockwell Automation; or (b) a distributor or systems integrator authorized by Rockwell Automation to distribute or sell Rockwell Automation equipment, Software and services within your territory to end users; or (c) a reseller authorized by any such distributor or systems integrator in accordance with the terms of the distributor's agreement with Rockwell Automation to distribute or sell the Rockwell Automation equipment, software and services within your territory to end users.

The following terms of this Agreement govern Customer's use of the Software (defined below), except to the extent: (a) there is a separate signed contract between Customer and Rockwell Automation governing Customer's use of the Software, or (b) the Software includes a separate 'click-accept' license agreement or third party license agreement as part of the installation or download process governing Customer's use of the Software. to the extent of a conflict between the provisions of the foregoing documents, the order of precedence shall be (1) the signed contract, (2) the click-accept agreement or third party license agreement, and (3) the Agreement. For purposes of the Agreement, 'Software' shall mean computer programs, including firmware and computer programs embedded in Rockwell Automation equipment, as provided to Customer by an approved source, and any upgrades, updates, anomaly resolutions, or modified versions thereto (collectively, 'Upgrades'), any of the same that has been relicensed under the Rockwell Automation software transfer and re-licensing policy (as may be amended by Rockwell Automation from time to time) or back-up copies of any of the foregoing license.

Conditioned upon compliance with the terms and conditions of the Agreement, Rockwell Automation grants to Customer a nonexclusive and nontransferable license to use for Customer's internal business purposes the Software and the documentation for which Customer has paid the required license fees to an approved source. 'Documentation' means written information (whether contained in user or technical manuals, training materials, specifications or otherwise) pertaining to the Software and made available by an approved source with the Software in any manner (including on CD-ROM, or online).

In order to use the Software, Customer may be required to input a registration number or product authorization key and register Customer's copy of the Software online at Rockwell Automation's website to obtain the necessary license key or license file. Customer's license to use the Software shall be limited to, and Customer shall not use the Software in excess of, a single hardware chassis or card or such other limitations as are set forth in the applicable supplemental license agreement or in the applicable purchase order which has been accepted by an approved source and for which Customer has paid to an approved source the required license fee (the 'purchase order').

Unless otherwise expressly provided in the documentation or any applicable supplemental license agreement, Customer shall use the Software solely as embedded in, for execution on, or (where the applicable documentation permits installation on non-Rockwell Automation equipment) for communication with Rockwell Automation equipment owned or leased by Customer and used for Customer's internal business purposes. No other licenses are granted by implication, estoppel or otherwise. For evaluation or beta copies for which Rockwell Automation does not charge a license fee, the above requirement to pay license fees does not apply.
